

Mr Robot

First excerpt

What are the elements that make a good tv show?

What's the hook in *Mr Robot*?

What's the main theme?

How would you describe the hero?

Can you guess what the story question will be?

Why did Elliot hack Ron?

E: I know you run a website called Plato's Boys.

R: Pardon me?

E: You're using to the servers anonymous. You made it really hard anyone see it. But I saw it. The, it's not as anonymous as you think in control of the is also in control of the, makes me the one in control.

R: I ask you to leave, please.

What does AFK mean?

What might Ron do to get away?

Second excerpt

Why does Angela call Elliot?

What does DDoS stand for? What is it?

L: Elliot. This is bad. DDos attack I've ever seen.

E: Did you reconfigure the

L: Yes.

E: Stop the services.

L: I already stopped the services. I tried to the servers but they're not coming Dude someone is finger-blasting our network now.

G: restarting the services, sharing, the traffic.

E: I think they've got a rootkit inside the servers.

A: What's a rootkit?

L: a code that completely their system. It could system files, programs, viruses, worms...

All of their servers are None of them are

E: This means we restart a server, the virus itself during boot-up, then the host.

By ourselves, we ended up the virus everywhere.

What's DNS?

What's the solution?

What's the problem when they get to the server farm?

What does Elliot need to do?

What should Elliot do with the .dat file? Why doesn't he do it?
